

FRIGHETT STRIPPED OF STOLEN RAIMENT

Dressed in Harris' Best Yesterday, Today in Jail Wearing Overalls

The passing of earthly glory from Jaspit Frighett was swift and dizzy. Several days ago he was arrayed in "fine linen" only it was not linen at all, belonging to W. H. Harris, a local transfer man. This morning he is in jail wearing a suit of overalls, and that he has a suit of overalls is due to the generosity of Harris.

Frighett was arrested several days ago on complaint of Harris, on the charge of stealing from him a suit of clothes, a white vest and a smoking jacket, and when arraigned before Judge Hild yesterday he was fined \$100 or a hundred days in jail. He was still in jail last night.

After Frighett was remanded to jail in default of paying a fine of \$100, Harris got an order from the court demanding of Frighett that he just give to Harris the suit of clothes, vest and jacket. Harris accompanied the officer to the jail and saw the prisoner make the change from Harris' Sunday best to a suit of overalls.

Frighett stated at his trial that Harris gave the clothes to him but his statement was not borne out by other testimony. Harris himself admitted the suit of overalls to the prisoner, saying, "overalls are good enough for me to work in and I know you are good enough for him."

CANNON WILL NOT RUN.
WASHINGTON, D. C., March 31.—Speaker Cannon announced today his intention not to seek the republican leadership in the next house, stating he would not be the candidate of the minority for the nomination for the speakership.

RACING AT PENSACOLA.
PENSACOLA, Fla., March 31.—Many fast horses from Tampa and Jacksonville are here for the fifteen days' race meeting, which began today under conditions that promise a successful season of sport.

Will you let it happen again?

You took the ordered suit, dissatisfied though you were. You knew instinctively that it didn't fit and that they couldn't properly correct it. You didn't want to appear a "mean man" by him or his friends so you paid for the suit and hated it for ever after.

Don't LET IT HAPPEN AGAIN. REMEMBER you can get a WASHINGTON CO. high class SUIT at a "SAFE PLACE."

WHY TAKE CHANCES?
WE REALLY HAVE very little competition; some we admit but there are few "REAL CLOTHIERS" in our vicinity.

OURS are backed by years of experience, with the guarantee from the makers and from us.

You are sure of a perfect fit at this store whether you are tall, short, lanky or fat.

You can tell how they are going to be; you see them NOW. Try on before the long mirrors study it from every angle, if it isn't perfect we don't want you to buy it.

MEN ARE NEVER ASHAMED OF A SCHWARTZ BROS. CO. SUIT.
\$17.50 to \$35.00 and here in every pattern & style.

New NECKWEAR
We've just unpacked a swell new assortment of our same old reliable line of Men's WASHABLE FOUR IN HANDS AT 35 & 50 cents. You never realized how nice wash neckwear can be 'till you see these.

WATER COMPANY IS NAMED AS DEFENDANT

Government Alleges Work Done on Climax Claim Insufficient to Hold

Suit has been brought by United States Attorney Joseph E. Morrison in federal court at Tombstone, against the Bisbee Naco Water company, for the purpose of cancelling the government patent to the Climax claim in upper Tombstone canyon. The ground of contention alleged by the government for its forfeiture is that no mineral has ever been discovered nor has had sufficient work to entitle the company to ownership ever been done.

The Climax is the original claim of the Bisbee Naco company, from which it served the citizens of Bisbee with water, prior to the sinking of its wells at Naco. Patent to it has been held for several years, but, in the light of recent investigations by Mr. Morrison, he believes that it is not legal owing to non performance of sufficient amount of work to hold it.

The government alleges that no trace of mineral in any quantity that would entitle the ground to be designated as mineral bearing, has ever been discovered. The filing of the suit came as a surprise to Bisbee people. Mr. Morrison has been working upon it, gathering data etc. for several months.

The first intimation Mr. M. J. Murphy had of the suit was when he was informed of it by telephone last evening. He said:

"There must be some mistake about the statement as to the company not having done any work on the claim, as work has been done there for eight or nine years. Regarding the government's contention that no mineral has been found there, gold and silver has been found on the claim though I can not now state just how much has been found. I do not think the suit amounts to much, though this is the first intimation I have had of it."

"CURTAIN" FOR LIBEL CASES.
WASHINGTON, D. C., March 31.—The curtain was rung down today on the celebrated Panama libel suits against the Press Publishing company, proprietor of the New York World, and Delevan Smith, publisher of the Indianapolis News, when United States Attorney Wilson requested permission of Justice Wright, of criminal court No. 1, to enter a nolle prosequere. The United States supreme court had decided the cases in favor of the defendants.

WALL STREET FEARS GOVERNMENT WILL DISTURB METHODS

Attorney General Denies He Has Plans for Interfering With Status

BUSINESS IS SATISFACTORY

NEW YORK, March 31.—Fear of disturbance by the federal government of Wall Street's methods of doing business was resurrected to day and became a decided factor, although the attorney general denied that any definite plan was afoot.

Prices fell with some precipitancy in the morning, but rallied in the afternoon and in the last hour showed a marked weakness again, the close being at the low level of the day. The spurt in stocks of the Canadian group, which was fostered from London, came to an end. Bank clearings at the leading centers of the country continued to exhibit considerable contraction.

Copper production at the Butte camp maintained during March at about the same rate as in the month immediately preceding.

Dun's review tomorrow will say: Business looks better in prospect than in performance, for confidence in the future is greater than present activity. Some hull appears in the demand for pig iron and in markets for finished products. However, business as a whole is satisfactory. Reduced operations are in effect at plate mills, which are now running at from 55 to 60 per cent of their capacity.

Equipment orders from the railroads came out strong; but one bridge project will require about six to thousand tons and considerable other work is pending.

Jobbers report a limited trade with retailers, who are especially cautious on cotton goods lines and the same feeling is noted among buyers of woollens and worsteds. Some dress goods mills have been releasing employees.

There is some increase in the demand for domestic packer hides though no activity exists.

LAND COMPANY SUED.
DENVER, Colo., March 31.—Suit was brought in the federal court at Denver today against the Oklahoma Land Colonization Co., for alleged fraud in dealing with customers, and asking for the appointment of a receiver. The company was formed by C. E. Marshall, of Chicago. It is charged that the company sold town lots and farm lands on which they had nothing but options.

TEXAS PEDAGOGUES MEET.
STAMPFORD, Texas, March 31.—The third annual meeting of the Central West Texas Teachers' association began at Stamford College today, with President T. C. Williams of Haskell presiding. The proceedings will continue over tomorrow.

SAN PEDRO VALLEY IS DREAM COME TRUE

Raising of Canal, Irrigates 400 Additional Acres of "Arid" Land

GOODMAN'S RECORD

Agriculture in the San Pedro valley, long the dream of theorists is a dream that has come true according to Lorenzo Wright, of the city police force, who has just returned from a visit to Benson and St. David, enthusiastic over the crop outlook for these sections.

At St. David the irrigation canal has been raised from the source on, allowing irrigation of more than four hundred acres of land. Hitherto untouched by water. This land which was previously not worth more than a dollar or two an acre at the outside is now being bid for at the rate of \$50 per acre with no sales made.

More than 2,000 acres of land are under irrigation in the Saint David community. Wheat, barley, oats, sorghum, and alfalfa, are the principal crops although small patches devoted to experimental growing of hitherto strange crops are to be found scattered through the community.

Thomas T. Goodman, a farmer of the district, has a phenomenal crop of alfalfa in that it will be ripe and ready to cut within ten days. This is a new record for that district as the earliest record up to this time was May 20, for the first cutting.

A Benson canal company has irrigated about 200 acres of additional land through improvements to the main and lateral ditches. Every crop promises a beautiful yield, Wright states, and the farmers are happy in anticipation of a season of success.

BIG AIR MACHINE AT JUNCTION SHAFT

New Compressor Has Capacity of 5,000 Cubic Feet of Air

One of the largest air compressors ever installed in the southwest has been set up at the Junction shaft of the S. & P. company and for two days has been in operation. It has a capacity of 5,000 cubic feet of air and will be used in operating up to five hundred drills which is the limit of its capacity.

The massive machine, which is running smoothly in every detail, replaces four ordinary compressors which have hitherto been the dependence of the Junction and Heaton shafts. It is described as a four cylinder, triple expansion, two stage air compressor, having many novelties in its construction.

Installation was made under the direction of Frank Zlatnik, an expert for the Nordberg company, of whose manufacture the machine is. The huge compressor has attracted much attention among mining men of the district, many of them visiting the Junction to watch it at work.

ARIZONA ASSAYER IS ARRESTED FOR THEFT

Kellogg Confesses He Stole Gold From Kingman Mine While Employed

SAN FRANCISCO, March 31.—William Kellogg, an assayer, recently employed by the Gold Road Mining company, operating near Kingman, Ariz., was arrested today, and according to the police, admitted that he had taken \$3,555 worth of gold precipitate from the company's cyanide plant. The finding of the gold in the shop of A. Gracier, a San Francisco dealer in precious metals, by detectives, led to Kellogg's arrest.

The detectives entered Gracier's place in search for gold stolen from the steamer Humboldt last August, for which theft a number of men are now held on suspicion in San Francisco. Suspecting that the gold precipitate had been stolen, the detectives obtained a description of Kellogg, later arresting him at a downtown street intersection.

He at first denied the theft, but in response to prolonged questioning, said he had taken the gold and come to San Francisco, after fifteen years service with the Gold Road company.

DRIVER DISBROW BREAKS RECORDS

Establishes High Marks for 50 and 200 Miles in Pope Hartford Auto

PABLO BEACH, Fla., March 31.—Two world's records were broken by the same driver in the automobile races here today. Disbrow driving a Pope Hartford, in the 200 mile race, made the first 50 miles in 37 mins., and 23.90 seconds. The former record of 38.51 was held by Fletcher, established with a Dietrich machine at Dayton, Fla., on January 31, 1905.

Disbrow's time for 200 miles was 2 hours, 34 minutes and 12 seconds, establishing a new high mark for the distance straight away. The record broken was made by Doherty in a Stoddard Dayton, in 3 hours, 2 minutes and 22 seconds at Galveston, August 5, 1910.

Disbrow's time for 250 miles, 3 hours, 14 minutes and 55 seconds, is the record, as no time for that distance, straight away, has been recorded.

BOWLING TOURNAMENT
TORONTO, Ont., March 31.—Visiting bowlers from a half dozen cities are in Toronto to compete in the championship tournament of the Canadian Bowling association, which will begin tomorrow and continue for one week.

We sell clothing on the basis of good value and perfect satisfaction. The only way we can do this is to search the markets and choose from the choicest. We've searched for a long time and will search for a long time to come, and we'll not find clothing that will equal the new spring models we now have on display.

We were not satisfied with selling but one well-known make of clothing. We are selling several of the best makes in the country. And each of these makers has some points about his clothing that recommends it—some design along the more conservative lines and others add all of those little touches that make such a strong appeal to the young fellows. Each maker stands highest in his particular style of making.

The models that we are showing are of the two and three button styles and are in shades of tan, brown and gray. A few styles show the narrow shoulders and short length coat. An early inspection of these models will be to your advantage.

\$13.50 up to \$35.

A new shipment of Holeproof Hosiery has just received. Each box of these hose, containing six pairs, is guaranteed to give six months wear, if worn in compliance with the instructions in each box. For every pair that fails to give satisfaction, a new pair will be given in its place. Ask about these hose. Prices are \$1.50—\$2.50 and \$3.00 box.
